OUR MISSION

Harnessing the power of state-wide consensus, the Oregon Winegrowers Association stands as the vital advocate for the health, growth and economic sustainability of Oregon's wine industry. We are a member-driven advocacy group advancing the interests of the largest agricultural economic impact sector in the state.

DECADES OF LEADING INDUSTRY CHANGE

Our vision for the wine industry remains ahead of the curve while being grounded in decades of policy making experience.

Key initiatives over the last 40+ years:

- Low or no wine excise tax rates/small producer exemptions
- Direct-to-consumer shipping privileges/reciprocal shipment law
- Lack of distributor franchise laws
- Land use laws for winery activities and events
- Oregon wine labeling regulations
- Wine and grape research at Oregon State University including new smoke analysis lab
- Grape Day/Oregon Wine Symposium
- Creation of Oregon Wine Advisory Board/Oregon Wine Board
- Wine Country License Plate

MEMBERSHIP FOR WINERIES & GROWERS

OVER 93% OF OUR MEMBERS CONTINUE TO INVEST IN OWA'S INITIATIVES THROUGH ANNUAL RENEWALS.

Small & Mid-Sized Growers & Wineries

OWA members gain a variety of benefits including legal support, opportunities for elevating issues in your region, and numerous cost-savings opportunities including a robust health care plan and discounts on direct-to-consumer shipping.

“

Organizations like the OWA have our backs in the Oregon legislature to support small family businesses like mine, giving a voice to the little guy. The affordable annual dues are a small price to pay in order to have the backing and support of lobbyists and staff that I know will go to bat for my business if asked.

Large-Scale Growers & Producers

As the regulatory landscape becomes increasingly complex, OWA members have a policy advocate at both the state and federal levels. We also offer numerous opportunities and resources to stay informed through timely compliance guidance and policy updates.

“

I appreciate having OWA working at the state level on land use regulation and protecting our rights to produce and sell wine. Even as a larger winery, there is little ability to personally impact what goes on in Salem. It's amazing that OWA drives collective communication so we can continue to grow Oregon's wine industry.

”

OWA IS THE LEADING ADVOCATE FOR OREGON GROWERS AND WINERIES, BENEFITING ALL MEMBERS IN THE STATE ACROSS EVERY AVA.

Whether it's representing issues at the state level or addressing policy with the federal government, OWA has the connections to deliver results.

ADVOCACY AT THE STATE LEVEL

Vine Mealy Bug Funding

OWA partnered with OSU, ODA and industry associations to secure \$447,100 in emergency state funding to help contain and eradicate vine mealybug in the Rogue Valley.

Bottle Bill Taskforce

OWA established a Bottle Bill taskforce to assess the costs and feasibility of adding wine bottles to the Oregon Bottle Bill vs. being part of a new Extended Producer Responsibility program.

Easing the Transition of Ag Overtime

OWA was the only ag group focused on ensuring a long phase-in of the 40-hour threshold and mitigating new costs for winegrowers with a refundable tax credit and bridge loan program.

Wine Privilege Tax Increase

OWA worked with our partners in the craft alcohol sector to beat back a massive wine privilege tax increase. OWA continues to argue for a thorough assessment of available resources and the effectiveness of treatment programs before shouldering wine producers with higher costs.

OWA Water Subcommittee

OWA developed a set of short-term and long-term policy objectives to better support the wine industry's current and future water needs in water policy conversations, among them prioritizing efficient use of water in allocating resources, tougher penalties for water theft, and allowing water rights holders to sublease to third parties to address waste.

ADVOCACY AT THE FEDERAL LEVEL

Smoke Impact Research

OWA's collaboration with winegrower groups in California and Washington has led to over \$10 million in federal funding to support ongoing research to better help growers and processors manage and reduce the impact of smoke exposure, with more funding to come.

Crop Insurance Enhancements

Worked with the USDA Risk Management Agency to make improvements to the federal crop insurance program, including extending the acreage reporting date from January 15 to May 15, expanding contract price eligibility to grape growers with both.

Federal Excise Tax

Assisted Senator Wyden in drafting the Craft Beverage Modernization and Tax Reform Act that became permanent in late 2021. The bill reduces federal excise tax rates for all Oregon wineries.

OWA SERVES AS THE AUTHORITY TO LEGISLATORS AND POLICY MAKERS ON OREGON WINE INDUSTRY ISSUES.

“

OWA is an essential voice for our community members, whether they're small grape growers or large wine producers.

As the industry's trusted collaborator and convener for over 40 years, OWA consistently seeks balance and advocates for the successful, responsible and sustainable growth of Oregon's wine industry at both the state and federal levels.
